Representative of ANBD,Seoul _ Jeehyun Kim
Representative of ANBD,Tainan _ Guang Dah Chen

I am very pleased that the 2nd Asia Network Beyond Design (ANBD) Exhibition will be held in 2009 with many more participants than last year. I am truly grateful to all staff and participants who have been involved in preparations for the related events.

In the expression of recent work, it can be considered that sharpness and strictness have been compromised. An understanding of processes that are mutually different is needed in order to resuscitate a genre, so mutual exchange beyond the frame of each genre is required. In the world of art, design and science, creativity hides in all domains.

ANBD utilizes a network to optimize the activation of mutual exchange through such creativity. The most important thing in the activities of ANBD is this process of mutual exchange rather than the final work itself. The kind of activity that makes a work successful is found in the process behind it. This process spreads through the network to all corners of Asia and encourages exchange, which gives rise to a peculiar kind of nature and similarity.

It is a process that serves to crystallize the identity of Asia. It will take time for professionals in the fields of art, design and science as a whole to feel comfortable with this new and ever-improving digital network technology. As awareness of the new network continues to spread, more artists, designers and scientists will learn to incorporate its digital domain into their work without being alienated by distance.

I hope the exhibitions of ANBD 2009 in Cheonan, Tainan, Tianjin and Nara will be fruitful for all involved.

I'm very glad to know that the grand opening of the 2nd session of 'Asia Network beyond Design 2009' and I'm fully understood that this exhibition is equipped with the common dream and intelligence of all of us. The reason why teachers, students, designers and artists of Asia actively attend in it is because it also show their everlasting research and going beyond spirit in front of the new 21st century. Here, on behalf of Tianjin Academy of Fine Arts (TAFA) and myself, I show my warm congratulations on this opening ceremony. Meanwhile I hope the exhibition will achieve success in Cheonan, Tainan, Tianjin and Nara I also hope from the bottom of my heart that our friendship tree will keep green forever and our cooperation flower will be in full blossom forever!

音絵樂
otoegaku

Paper collagraph ×Japanese lacquer
Oto-E-Gaku Picture frame

The attempt of this project, "音絵樂 Oto-E-Gaku (Music and art)" is to seek harmonization with other fields beyond art. The art can be brought into daily life by combining the print work with lacquer ware. Japanese paper, and Japanese lacquer both use the traditional Japanese or Asian technique. Both materials go very well with each other. The frame for the paper collagraph is also an important part of the art. By painting the surface and the side in different ways, the frame was created as if it were some furniture. A clock is fixed with a lacquer plate. A lacquer plate is made into a small easel. This suited well with the censer made in China .
