Representative of ANBD, Tianjin _ Guo Jin Sheng
Representative of ANBD, Tokyo _ Nakajima Chie

I am very pleased that the 2nd Asia Network Beyond Design (ANBD) Exhibition will be held in 2009 with many more participants than last year. I am truly grateful to all staff and participants who have been involved in preparations for the related events.

In the expression of recent work, it can be considered that sharpness and strictness have been compromised. An understanding of processes that are mutually different is needed in order to resuscitate a genre, so mutual exchange beyond the frame of each genre is required. In the world of art, design and science, creativity hides in all domains.

ANBD utilizes a network to optimize the activation of mutual exchange through such creativity. The most important thing in the activities of ANBD is this process of mutual exchange rather than the final work itself. The kind of activity that makes a work successful is found in the process behind it. This process spreads through the network to all corners of Asia and encourages exchange, which gives rise to a peculiar kind of nature and similarity.

It is a process that serves to crystallize the identity of Asia. It will take time for professionals in the fields of art, design and science as a whole to feel comfortable with this new and ever-improving digital network technology. As awareness of the new network continues to spread, more artists, designers and scientists will learn to incorporate its digital domain into their work without being alienated by distance.

I hope the exhibitions of ANBD 2009 in Cheonan, Tainan, Tianjin and Nara will be fruitful for all involved.

Harada - Akira

President
ANBD

Congratulations on ASIA NETWORK BEYOND DESIGN 2009, Cheonan.

At the time that Asia is becoming more and more important in the world, I am very pleased that the valuable exhibition of ASIA NETWORK BEYOND DESIGN is held in Cheonan campus of Sangmyung University, Cheonan, Korea.

The exhibition of Asia Network beyond Design 2009 will facilitate significant academic and cultural exchanges amAlso this event can be able to build up common goals to share their works across different majors, regions and concerns.

I am also convinced that this event can be a basis of sharing various research and education and making another success as well through strong network.

I wish the exhibitions in Tainan, Tianjin and Nara as well as in Cheonan will be successfully achieved. Thank you.

Hyun Chong LEE, Ph. D

President

Paper collagraph×LIVE photograph

Music of shadow

The attempt of this project, "音絵楽 Oto-E-Gaku (Music and art)" is to seek harmonization with other fields beyond art.

The photographed subject is the plate for the collagraph and not the collagraph itself.

This was an idea suggested by the photographer.

This photographer takes pictures of musicians, such as "동방신기(東方神起)" "SS501"

He takes the photograph as if the plate were a musician and not a mere work.
