President of ANBD _ Akira Harada
Representative of ANBD, Tainan _ Guang Dah Chen
Representative of ANBD, Tianjin _ Guo Jin Sheng
Representative of ANBD, Tokyo _ Nakajima Chie
Representative of ANBD, Seoul _ Jeehyun Kim

I am very pleased that the 2nd Asia Network Beyond Design (ANBD) Exhibition will be held in 2009 with many more participants than last year. I am truly grateful to all staff and participants who have been involved in preparations for the related events.

In the expression of recent work, it can be considered that sharpness and strictness have been compromised. An understanding of processes that are mutually different is needed in order to resuscitate a genre, so mutual exchange beyond the frame of each genre is required. In the world of art, design and science, creativity hides in all domains.

ANBD utilizes a network to optimize the activation of mutual exchange through such creativity. The most important thing in the activities of ANBD is this process of mutual exchange rather than the final work itself. The kind of activity that makes a work successful is found in the process behind it. This process spreads through the network to all corners of Asia and encourages exchange, which gives rise to a peculiar kind of nature and similarity.

It is a process that serves to crystallize the identity of Asia. It will take time for professionals in the fields of art, design and science as a whole to feel comfortable with this new and ever-improving digital network technology. As awareness of the new network continues to spread, more artists, designers and scientists will learn to incorporate its digital domain into their work without being alienated by distance.

I hope the exhibitions of ANBD 2009 in Cheonan, Tainan, Tianjin and Nara will be fruitful for all involved.

President
ANBD

The development of Asia has become an important part under the trend of globalization development. This revealed not only in the field of economics, but also in the field of culture and art. In the field of design, people express their creation developed from Asia by applying different languages, different patterns, and different innovations. It is our great honor that Kun Shan University is Taiwan's organizer for the exhibition of Asia Network Beyond Design 2009. I am glad to see that the design education and development in Taiwan could have more communication with other Asian area. The design of Asia will be more active and influential because of the exchange. Best wish to the exhibition of ANBD 2009 will be successful in each host area.

Su, Yan-Kuin

Oto-E-Gaku LIVE

音絵楽
otoegaku

The attempt of this project, "音絵楽 Oto-E-Gaku (Music and art)" is to seek harmonization with other fields beyond art. A concert is performed in the paper work gallery of which the main theme is "Erik Satie". With the inspiration drawn by the print works, impromptu rendition was performed. This photo gave me the inspiration to create the "Oto-E-Gaku". These pictures bring us the key to the next evolution.
