Asia Network Beyond Design (ANBD) association has been founded in 2008, and initiated a great movement towards new worlds. After waiting with bated breath for long time, currently we can feel the creative culture starting to turn again. Some people are still observing this situation, waiting to see what will be happened.

What is the boundaries of the mission and competence of art & design currently? How can we create the culture learned from the experiences in these 20th centuries of technical innovation, without mentioning other creative fields? It is time to think carefully about creative domain from the bird's eye view and try to self-critical innovation.

In what direction will culture steer? Let's rise above the domain of art or let's rise above the domain of design. What can you see beyond the various domains? We will merge with other disciplines, and have to be more cooperative and apply their resources.

The world beyond art and design may be a common "Kansei and emotional platform" for exchanging mind, inspiration, feeling, sensation and emotion. We will continue to prepare "Kansei and emotional platform" to encourage fledgling artists' and designers' first steps and promote the upcoming creative generations in Asia.

I would like to thank for all the staffs who have supported with organizing the ANBD2010 exhibitions: Prof. Jeehyun Kim(Hansung University), Prof. Guang-Dah Chen(Kun Shan University), Prof. Guo Jin-Sheng(Tianjin Academy of Arts) and Prof. Nakajima Chie(Tamagawa University) and others.

Harada - Akira

President of ANBD
President of Sapporo City University

Today, artists are playing an important role in creating life aesthetics. In the past, we viewed art as aesthetics, now artists have become producers of culture.

National Taiwan University of Arts (NTUA) is currently active at cultural & creative industry promotion. The 3rd 2010 ANBD will be exhibited at four Asian cities, which are Taipei, Tienjin, Chinzou and Yokohama during Sept to Nov 2010. I believe many international designers and artists will come to NTUA to participate this exhibition. Hoping this cross-country conversation will create a new energy to lead future design education and cultural & creative industry.

It's pleased to host this international exhibition at NTUA and provides students a great chance to inspect and learn from word design. I also believe those outstanding design works will cause wide reverberation, and spread the concept which are the beauty of Asian culture and design in the world arena.

Kuang-Nan HUANG

President
National Taiwan University of Arts

The works of Asia Network Beyond Design will be held in National Taiwan University of Art. Through the different background culture of Asia areas and the presentation of creative ideas with expressive techniques, there will be agitated the most excellently designed works.

I hope this process of culture exchange and work communication can encourage and develop more excellent designers with multi-culture views. Best wishes to the activities of 2010 ANBD will be successful. And NTUA always welcome you wholeheartedly.
