I wish to express my thanks for the participants at ANBD 2011 exhibitions at the 4 areas opening in Asia. An understanding to a process which is mutually different will be needed in order to resuscitate a genre freshly. Therefore, the mutual exchange beyond the frame of each genre is required. Today, technologies are developing with rapidly and will spread to all the countries of the world. On the other hand, various types of contradictions will arise by losing the identity between the technologies and humans, or between technologies and the cultural individual styles.

I believe that creation is an activity towards solving these contradictions. It is then important to be conscious of these contradictions which will arise in each region or each country. In solving these problems, the creative works of the designers will contribute to the regional each identity. The reason why I wish to consider regionality on the level of creation is that regionality is not the only source of creative energy but one of the factors which contributes towards creation.

By this way, the identity of Asia serves towards a crystal. It is still taking time for a lot of genre of art, design and science profession as a whole feel comfortable with this new and ever-improving digital network technology. As awareness of the new network continues to disseminate, the more artists, designers and scientists will learn to incorporate the digital network in their practice without being unsettled by the distance. If this exhibition becomes a point of departure for the gradual deepening and clarification of the presentations raised here, then our highest wishes will be more than thought.

Akira Harada

President, Association of ANBD
President, Sapporo City University

It is my greatest pleasure that Hansung University hosts to the 2011 Asia Network Beyond Design(ANBD)in Seoul and we can invite nearly 300 artworks from several cities around Asia. ANBD aims to creative network activity beyond the boundary of genres for designers and artists. I hope this is a good opportunity to share each others cultures and to make new friendships as well as experience through artwork.

This year ANBD exhibition is held under the theme of 'System of Life' which focuses on human life. The activities beyond the network that we share and experience is the ultimate purpose for our lives.

I look forward to growing ANBD's spirit every year. Also, I wish the exhibitions to open with success in Tianjin, Taipei, and Yokohama after Seoul.

Joo-Taek Chung, Ph.D.

President of Hansung University

History has been being made and shared by mankind through tremendous communications on the specific political and economical purposes. Nevertheless it is a fact that a lot of wounds and pains are to be suffered as well. At this time, it is quite encouraging and meaningful that ANBD has started and grown with building new relationships and opening harmonious places by way of purely collaborations among many aspects of arts. This is because of works to demolish own boundaries as well as trials to embrace common topics over the personal issues.

Especially, 'System for Life', the theme of this year, reminds some critical challenges that all mankind are concerned about and has to resolve together. Therefore, I am heartily looking forward to new solutions and alternatives through confident views and close relationships within ANBD.

Congratulations on the exhibition of ANBD 2011 once again and I am very happy to give my big applauds and deep respects to the representatives in each areas who do not spare themselves.
