Representative of ANBD, Taipei _ Guang Dah Chen
Representative of ANBD, Tokyo _ Nakajima Chie

I wish to express my thanks for the participants at ANBD 2012 exhibitions at the 4 areas opening in Asia. Understanding to the difference of local culture which is mutually different will be required in order to resuscitate a genre of art & design to be fresh.

Therefore, the mutual exchange beyond the border of each different genre is required. Today, technologies are developing rapidly and will spread to all the countries of the world.

On the other hand, various types of contradictions will arise by losing the identity between the technologies and humans, or between technologies and the regional culture. I believe that creation is the most possible activity towards solving these contradictions.

It is then important to be conscious of these cultural differences which will arise in each region or each country. In solving these problems, the creative cooperation with the artists and designers will contribute the individual identity beyond the each genre.

The reason why I wish to consider regional culture on the level of creativity is that regional culture is not only a source of creative energy but is a back ground of creativity.

By this way, the identity of Asia serves towards a crystal. It is still taking time for a lot of genre of art & design and science as a whole feel comfortable with this new and self-improving digital network technology.

As awareness of the new network continues to disseminate, the more artists, designers and scientists will learn to incorporate the digital network in their practice without being unsettled by the mutual distance.

If this exhibition becomes a point of departure for the gradual deepening and the improving of the presentations raise, then our highest wishes will be more than thought.

Akira HARADA

President of ANBD
Emeritus professor of Sapporo City University

The "2012 Asia Network Beyond Design" exhibition, co-sponsored by the institutions for higher learning in Asian countries, serves as a bridge to promote exchange and communication among colleges and universities in terms of culture, education, and technology and to contribute to the development of Asian design business.

By hosting the exhibition this time, Soochow University will be greatly vitalized and will bring new design element to the exhibition. We would like to avail ourselves of this opportunity to learn from and exchange with other universities and to enhance our design teaching and research. In the meantime, we would like to display and share different cultural and artistic features from different areas to promote the Asian design art and culture to a higher level.

The updated achievements displayed at the exhibition will reinforce the cultural transmission and exchange of Asian design culture and motivate the creative cultural industry of Suzhou as well.
May the "2012 Asia Network Beyond Design, Suzhou" a great success!

Li Chaode

Dean
School of Art, Soochow University

The "2012 Asia Network Beyond Design" Suzhou exhibition is going to be open at Soochow University for the first time. The teachers and students from our visual communication department have attended the exhibition since 2009.

The exhibition creates the opportunity for us to communicate with our educational brotherhood and make more friends from different countries. The ANBD is not only a platform for academic exchanges and educational researches, but also a chance for us to promote friendship internationally.

I believe the 2012 ANBD Suzhou exhibition will contribute to the Asian art and design education, and make further efforts on promoting understandings, expanding exchanges, and enhancing friendships. I wish the exhibition a complete success!
