I wish to express my thanks for the participants at ANBD 2012 exhibitions at the 4 areas opening in Asia. Understanding to the difference of local culture which is mutually different will be required in order to resuscitate a genre of art & design to be fresh. Therefore, the mutual exchange beyond the border of each different genre is required. Today, technologies are developing rapidly and will spread to all the countries of the world.

On the other hand, various types of contradictions will arise by losing the identity between the technologies and humans, or between technologies and the regional culture. I believe that creation is the most possible activity towards solving these contradictions. It is then important to be conscious of these cultural differences which will arise in each region or each country. In solving these problems, the creative cooperation with the artists and designers will contribute the individual identity beyond the each genre. The reason why I wish to consider regional culture on the level of creativity is that regional culture is not only a source of creative energy but is a background of creativity. By this way, the identity of Asia serves towards a crystal. It is still taking time for a lot of genre of art & design and science as a whole feel comfortable with this new and self-improving digital network technology. As awareness of the new network continues to disseminate, the more artists, designers and scientists will learn to incorporate the digital network in their practice without being unsettled by the mutual distance. If this exhibition becomes a point of departure for the gradual deepening and the improving of the presentations raise, then our highest wishes will be more than thought.

Akira HARADA
President of ANBD
Emeritus professor of Sapporo City University

Yeojong Yoon
Chairperson of ANBD2012 Seoul Exhibition
Professor of Sookmyung Women’s University
Building a network which covers various fields requires “openness”. When “passion for growth” is added to this “openness”, it initiates creative forms of getting together, sharing ideas, holding exhibitions and encouraging future potential through presenting awards. I understand ANBD is one of these initiatives. Since 2009, ANBD started to offer ANBD excellence awards to outstanding participants. It means it started to define its values inside of the network. These efforts form “open frame” as a strong platform for future growth.

I admire ANBD’s initiatives because “growth” is the number one priority of my professional life. I believe in ANBD’s efforts which contribute to the growth of creative world.

“Region+Culture”, the theme of ANBD 2012, is timely and inevitable. This theme is one of the most important subjects on which intelligent and creative thought leaders in Asia have to explore, discuss and inspire each other in order to create sustainable growth. Asia consists of 60% of the world population. China, Japan, Taiwan, and Korea are 4 major Asian leaders which will lead the creative world in the next century. I believe ANBD’s efforts will contribute to this vision and inspire many young people to join the initiatives.

Congratulations on ANBD 2012 Exhibitions! I strongly support the initiatives of ANBD 2012.
