## Greeting Speech for the opening of the exhibition

by Mahawalage, Athula\_ Representative of the ANBD COLOMBO

## Greeting Speech for the opening of the exhibition\_ "Common Platform"

by Akira Harada\_ Honorary Chairman of ANBD

At the first, I express my heartfelt gratitude to the dedication of Prof. Janaka Rajapakse, Marketing Professional Asthula Mahawalage, and Lecturer Aruna Ishara Gamage who have been preparing for two years.

The aim of ANBD is to enhance the quality of life by cross-border collaboration in different genres, and to enrich the creative culture by humanizing technology, art and design. But even now, humanization of technology, art and design that has guaranteed our rich creative culture has not been realized.

On the other hand, rapid performance advances such as artificial intelligence (AI) have surpassed human intelligence. No matter how AI or robots develop, it will not change how high the value of creativity, dignity, love, and self-consciousness possessed only by humanity is. That is why ANBD aims to integrate creativity and science, which are different fields, by injecting human sensibility and creativity into artificial intelligence (AI).

This year's theme "Illuminating Asia" of the ANBD exhibition shows the current Asian cultural value. Because Sri Lanka is the host country of this exhibition, I think that it has realized it is possible to project "illumination" included in Asia from all 14 awarded works to the whole world.

I was very moved by the fact that I could experience the importance of creating a common platform of technology, art and design in ANBD 2019 Colombo, no matter how technology advanced.

We thank the crew of ANBD 2019 Colombo for this opportunity and also all who have supported this endeavor.

## Congratulatory Speech

by Youl Cho \_ Chairman of ANBD

It's all the more pleasant to meet you in Colombo, Sri Lanka, a beautiful and mysterious country.

Sri Lanka has long been known in Korea as the country of Silenti.

Especially in the '80s, I met Sri Lanka in the film as the location for Indiana Jones and the Temple Of Doom, which was made by filmmaker Steven Spielberg. I heard that rural village called Candy was already filmed on the Bridge on The River Kwai in the 1950s. I'm attracted to Sri Lanka's religious temples and mysterious images that I feel in nature.

ANBD was found in 2008 with the aim of exchanging creations across the boundaries of art and design, focusing on Seoul, Tokyo, Tianjin and Taipei.

In 2018, three new regions such as Tainan, Shanxi and Kuala Lumpur were added and expanded to seven. In 2019, we are also preparing to participate in new regions such as Shanghai, Beijing, Manila, Singapore, and Indonesia including Colombo, Sri Lanka.

ANBD, which originated in Northeast Asia, is still evolving across cultures and genres in Southeast Asia as well as throughout Asia.

In his keynote speech today, professor Akira Harada said, 'Why Beyond Design Is Now?' artificial intelligence fails to bind together independent professional genres, but Beyond Design emphasizes that it is oriented toward solidarity between different cultures and genres and makes it possible.

The goal of ANBD is to describe networking between different genres of art, networking between different regions, and networking between different cultures. But most importantly, through these network activities, we're going to build a networking between humans and humans that has different personalities.

And to do that, the ANBD has evolved over a decade. The evidence is that we are meeting today in Colombo, the southern part of Asia.

Finally, I would like to express my sincere thanks to professor Janaka Rajapakse and Mr. Aruna Ishara Gamage, including world-renowned designer Atula Mahawalage, who prepared the 2018 Colombo Special Exhibition.

I wish you endless development of all regions.
